

EUROPEAN COMMISSION
DIRECTORATE-GENERAL FOR EDUCATION AND CULTURE

Higher education and international affairs; Erasmus+

Brussels, 23 September 2014

TO WHOM IT MAY CONCERN

The European Association of ERASMUS Coordinators (EAEC) has undertaken the initiative to run an annual on-line survey, called ERASMUS+ Barometer, with the intention to monitor indicators related to the mobility actions.

For the success of the ERASMUS+ mobility actions, both within programme countries and between programme and partner countries, it is crucial to receive a direct feedback from all stakeholders involved from the very beginning of the programme and during its further development. Although it is not an official survey of the European commission, it can still provide data which complement other official reports. Therefore, the European Commission supports this initiative and is looking forward to its results on an annual basis.

It will be our pleasure to discuss with you the results of this survey during the annual EAEC congress ERACON and to further develop and improve the Programme together, where necessary.

Yours sincerely,

Jordi Curell
Director
